Tab – 3: About Us

[Headline with a background] Future-Ready AI – driven, system-agnostic RegTech Solutions for Banks and Financial Institutions

[Sub-headline]

NStechX India Pvt. Ltd. is a young and dynamic organization that empowers banks, NBFCs, and financial institutions with secure, scalable, and future-ready technology.

Our solutions support rapid digital transformation while meeting evolving regulatory expectations. We are designed to deliver measurable operational outcomes, enhanced transparency, and audit-ready compliance.

Positioned for strong growth in India's expanding fintech landscape, NStechX combines deep domain expertise with cutting-edge technology to address the most pressing challenges in financial services.

Why NStechX?

Why We Exist

The regulatory landscape for Banks and NBFCs is becoming increasingly complex, dynamic, and data-intensive. Frequent regulatory updates, tighter supervision, and growing expectations around transparency, accuracy, and risk management have made compliance a strategic challenge rather than a back-office function.

We have formed this Regulatory Technology (RegTech) company with a clear mission: to help financial institutions meet regulatory requirements efficiently, accurately, and at scale.

What We Do

Our RegTech solutions are purpose-built for the Banking and NBFC ecosystem, addressing critical regulatory and operational pain points through automation and intelligent controls. Our product suite includes solutions for Reconciliation, Unified Lending Interface (ULI) enablement, Fraud Risk Management Systems (FRMS), and other regulatory reporting and compliance needs.

By reducing manual effort, eliminating data inconsistencies, and enabling real-time monitoring, our solutions help institutions:

- Stay continuously compliant with evolving regulations
- Minimize operational and regulatory risk
- Improve audit readiness and reporting accuracy
- Focus more on growth and customer outcomes

Our Vision

We believe regulatory compliance should be proactive, predictable, and technology-driven. Our goal is to become a trusted RegTech partner for Banks and NBFCs, transforming compliance from a cost centre into a source of operational strength and confidence.

- ✓ Plug-and-Play Integration – Seamlessly integrates with your existing systems with minimal effort
- ✓ AI and block chain technology for adding accuracy, speed and Regulatory Compliance
- ✓ Flexible, Low-Impact Onboarding – Go live quickly without major changes to your core platforms
- ✓ Eliminate Manual Inefficiencies – Automate operations to reduce cost, errors, and dependency on manual processes
- ✓ Built for Transaction Complexity – Designed to handle high-volume, multi-rail digital transactions with ease
- ✓ Compliance-Ready by Design – Meets growing regulatory, audit, and governance requirements out of the box
- ✓ Truly Independent & Auditable – Provides transparent, system-agnostic reconciliation and reporting
- ✓ Real-Time Visibility & Automation – Instant insights, real-time reports, and proactive exception handling

Tab – 7: Contact Us

Registered Office:

NStechX India Private Limited.

002 – Bldg no. 1, Manorama Nagar

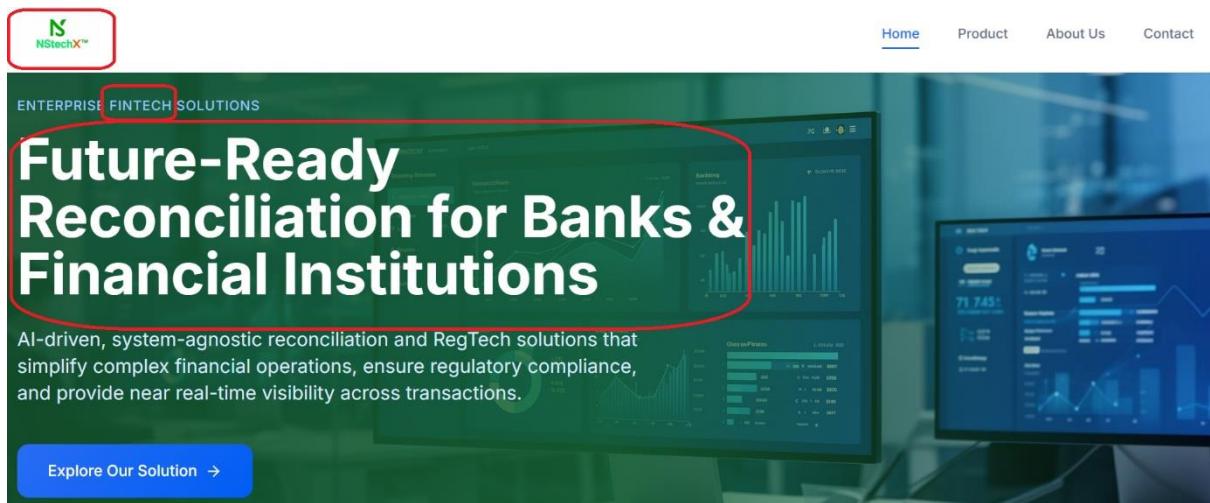

Thane – 400604, Maharashtra

Email: contactus@nstechx.co.in

Mob: 7208814414

Observations:

Screen 1:

1. Use the correct logo of NStechX
2. Increase the size of the logo
3. Replace 'Fintech' to 'Reg-tech'
4. Reduce the font size of 'Future-Ready...'

Screen 2:

Rephrase the content as per the revised draft.

Why Choose NStechX

Delivering measurable operational outcomes with enhanced transparency and audit-ready compliance.

Regulatory Compliance

Audit-ready solutions that meet evolving regulatory expectations and standards.

Real-Time Processing

Near real-time visibility across all transactions for faster decision-making.

Intelligent Automation

AI-driven reconciliation that reduces manual effort and operational costs.

Screen 3:

Comprehensive Financial Operations Platform

NStechX provides secure, scalable technology that supports rapid digital transformation while meeting evolving regulatory expectations across India's expanding fintech landscape.

<input checked="" type="radio"/> System-agnostic integration	<input checked="" type="radio"/> End-to-end reconciliation
<input checked="" type="radio"/> Dispute management	<input checked="" type="radio"/> Settlement automation
<input checked="" type="radio"/> Regulatory reporting	<input checked="" type="radio"/> Audit trail visibility

Transaction Processing	Real-time

Automation Level	AI-Driven

1. Remove the content in red highlight (Reason – repetitive).
2. Retain the content highlighted in green. Reposition it in 'Tab 2: Products' Screen

Screen 4:

1

Intelligent Reconciliation Platform

verif.ai is NStechX's flagship AI-driven, end-to-end reconciliation, settlement, and dispute management platform designed for modern banking and fintech environments.

Built as a future-ready RegTech solution, Verif.ai transforms how financial institutions manage transaction reconciliation, regulatory reporting, and dispute resolution-bringing intelligence, automation, and control into a single platform.

3

Platform Type
RegTech Solution

1. Make the Verif.ai logo visually nicer
2. Remove the word 'banking and fintech' from the content and replace with BFSI – Refer the revised draft above.
3. What does 'Platform Type' indicate?

Screen 5: No change required.

The Challenges We Address

Modern financial institutions face complex operational challenges that demand intelligent, automated solutions.

Manual Reconciliation Costs

High operational costs and resource drain from labor-intensive manual reconciliation processes.

Digital Transaction Complexity

Increasing volume and complexity of digital transactions across multiple channels and systems.

Regulatory Scrutiny

Rising regulatory and audit requirements demanding comprehensive compliance documentation.

Audit Trail Gaps

Lack of independent, auditable reconciliation solutions creating compliance risks.

Real-Time Demands

Urgent demand for real-time reporting and automation in fast-paced financial environments.

System Integration

Challenges in integrating multiple legacy and modern systems for unified operations.

Screen 6: No Change Required.

The Verif.ai Solution

Verif.ai delivers a comprehensive platform that unifies reconciliation, settlement, and dispute management into a single, intelligent workflow. Our AI-driven approach reduces manual intervention while ensuring complete regulatory compliance.

With system-agnostic integration capabilities, Verif.ai connects seamlessly with existing infrastructure, providing financial institutions with the flexibility to modernize operations without disrupting established workflows.

Screen 8:

1. Update the correct logo.

Screen 9:

About NStechX

A fintech innovation company built with a vision to solve real, high-impact challenges faced by the Indian banking and financial services ecosystem.

Empowering Financial

1. The content must appear in single screen. Reduce unnecessary spacing and font size.
2. Replace the revised content.

Screen 10:

Our Mission

To solve real, high-impact challenges faced by the Indian banking and financial services ecosystem through innovative technology solutions.

Our Vision

To be the leading provider of secure, scalable, and future-ready technology that supports rapid digital transformation in India's expanding fintech landscape.

1. Replace the revised content.

Screen 11:

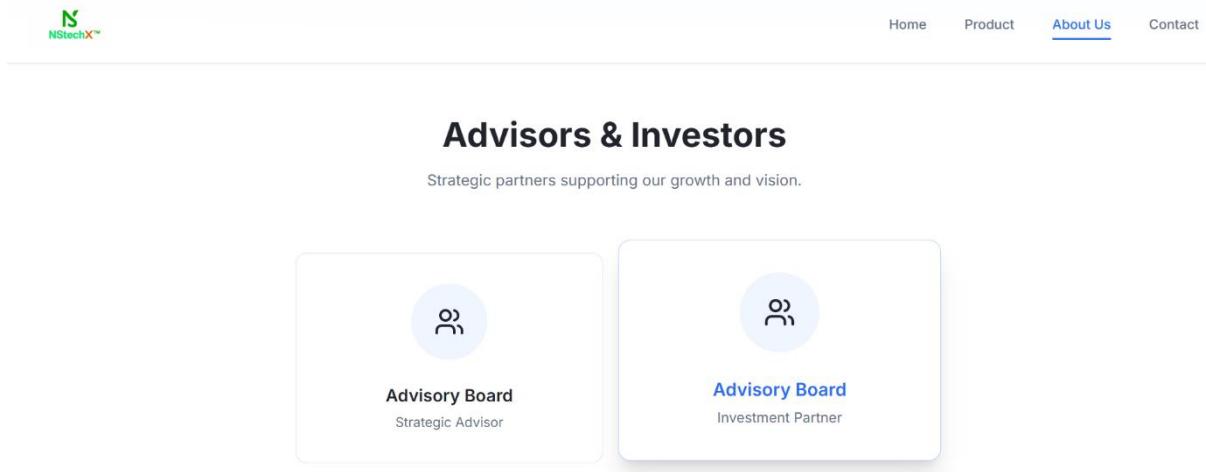

The screenshot shows a 'Leadership Team' section with four team members: CEO, CTO, COO, and HP. Each member has a circular profile icon and a title/description below it. An orange border highlights the entire row of profiles.

CEO	CTO	COO	HP
Leadership Team Chief Executive Officer	Leadership Team Chief Technology Officer	Leadership Team Chief Operating Officer	Leadership Team Head of Product

1. Remove the highlighted description and just mention as 'Coming Soon'

Screen 12:

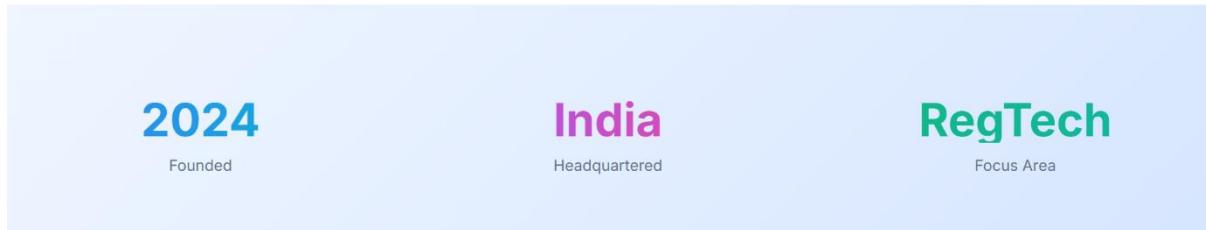

The screenshot shows an 'Advisors & Investors' section with two advisory boards: 'Strategic Advisor' and 'Investment Partner'. Each board has a circular profile icon and a title/description below it.

Advisory Board	Advisory Board
Strategic Advisor	Investment Partner

1. Remove this section.

Screen 13:

The screenshot shows a summary section with three items: '2024 Founded', 'India Headquartered', and 'RegTech Focus Area'.

2024 Founded	India Headquartered	RegTech Focus Area
-----------------	------------------------	-----------------------

1. Remove this section.

Screen 14:

The screenshot shows a dark blue header with the NStechX logo and a navigation bar with links for Home, Product, About Us, and Contact. The main content area has a dark blue background with the heading "Contact Us". Below it is a text block: "Get in touch with our team to learn how NStechX can transform your financial operations."

1. Remove this section

Screen 15:

The screenshot shows a dark blue header with the NStechX logo and a navigation bar with links for Home, Product, About Us, and Contact. The main content area features three white rounded rectangular boxes. The first box contains an envelope icon, the text "Email", and the email address "contactus@nstechx.co.in". The second box contains a phone receiver icon, the text "Phone", and the phone number "+91 7208814414". The third box contains a location pin icon, the text "Office", and the address "002 – Bldg no. 1, Manorama Nagar, Thane – 400604, Maharashtra".

1. Remove this section

Screen 17:

The screenshot shows a dark blue header with the NStechX logo and a navigation bar with links for Home, Product, About Us, and Contact. Two specific sections are highlighted with orange circles and numbered 1 and 2. Section 1, labeled "Our Registered Office", contains the text: "NStechX India Private Limited", "002 – Bldg no. 1, Manorama Nagar", "Thane – 400604", and "Maharashtra, India". Section 2, labeled with a location pin icon, contains the text: "Thane, Maharashtra", "India".

1. Revise address as per the content given in the draft – 'Contact Us'
2. Remove Location indicator

Other Observations:

1. Check the font size proportion of Heading & sub headings
2. Uniformity of the font type
3. Color theme as per the suggested RALs in the Whatsapp group.
